

BSS 2RS NSF H1

Rolamentos de chumaceira em aço inox Chumaceiras em plástico

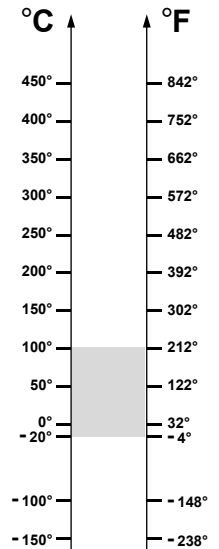

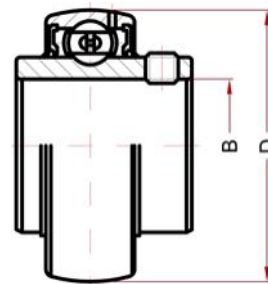

Características técnicas:

- Material do rolamento: aço inox temperado
- Folga radial normal
- Vedantes em aço inox tipo 2RS
- Lubrificado com massa própria para utilização na indústria alimentar de acordo com a norma NSF H1
- Suportes em plástico

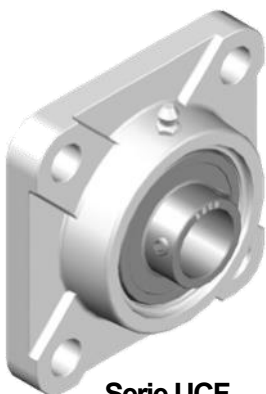

Campos de aplicação:

- Transportadores aéreos para fábricas de processamento de alimentos
- Indústria de construção, janelas, janelas de correr, etc.
- Indústria alimentar
